THURSDAY April 11, 1907

The early show got handed a lemon in the shape of an early spring blizzard instead of the proverbial worm. At Ronceverte the day before they had a fairly good day, but when they pulled into this town a bitter wind greeted them, and the hills round about were covered with snow. The poor negroes and other rouabouts from the balmy breezes of Florida but a few weeks suffered terribly from the cold. Apparently almost numb they finally got the heavy wagons off the cars and started toward the ground, only to have them mired so deeply that eight large horses were unable to budge more than half a load. There were snow squalls continuously all the morning, and pretty soon the wagons were headed back to the cars, and loaded in the presence of a large crowd of show-going spectators, who had braved the inclemency, and stood around all day. There were a number of risks which the managers did not care to run. If the snow came deep, the tent would be broken down, and if it melted as it fell there would be danger of the canvas freezing. Then, too, there were a lot of monkeys and other tropical animals whose lives would have been endangered by the cold, not to mention the comfort of the show attaches who had wintered in a warm climate. At Darbin, the snow lay deep on the ground, and they went on to Elkins. Beside their other bad luck they were delayed in getting out of town by their engine breaking down.

Although the great national conventions are yet fifteen months in the future, the political pot is simmering right merrily. President Roosevelt is involved, is shouting conspiracy and calling all men liars. He no longer attempts to assume the role of Mr Facing-Both-Ways, but has thrown over his friend Mr Harriman and fellow misquates, and now appeals to the people to allow him to name the Republican nominee. The exposure which resulted when Mr Harriman and the president ceased to understand each other redounds to the glory of neither as conditions, of which the misappropriation of trust funds by insurance companies gave us an inkling, have been brought out. The bleeding of trusts and monopolies for the Roosevelt fund of which Judge Parker spoke and was called a lair for his pains, was an actual fact, and no one knew it better than Judge Parker for it had been offered to him, if he would but pursue a policy favorable to the interest of predatory wealth, which is fast bringing country to a state of anarchy and socialism.

One of the old Confederates who will go to Richmond from this county to the Reunion has not been there since the city was surrendered to the Federals. The day before had received four bad gunshot wounds in the charge upon Fort Steadman, and when he heard the city was to be surrendered he and a few comrades asked for a furlough, and started to walk to his home at the head of Jackson River. Owing to his wounds he traveled but slowly and was some time in making the long trip. He had been at home but a short time, when he took the only remaining horse on the farm to the mountains to keep him from being stolen by the Yankees. On his way he was overtaken by a troop of cavalry and was made prisoner. Among the soldiers was an acquaintance who had deserted from the Confederate army early in the war. Upon being approached by this man, he was asked if he, the deserter, had not always been a good Union man. The prisoner returned with proper spirit that the deserter was nothing, never had been anything but a coward and could not be made to fight on either side. This so humored the Yankee that he was turned loose and allowed to go home. On this same day the late Benbow Blavin was taken prisoner and held at Parkersburg four or five months.

Town Council
Town Council met Monday with all the members present except Councilman Baxter. The sergeant was ordered to reports on the cost and plans of a bridge on Ninth street near Clark's livery. Six rubber firemen's suits were ordered, and the sergeant directed to erect a loss tower and put in fire alarm boxes wherever necessary and buy a dozen hose hooks. The arc light on lower Camden avenue were ordered removed and in their place will be put 14 incandescent light. A walk will be constructed from the Gourley building to M. F. Gum's residence on 3rd avenue. Landowners on the an... parallel to Camden avenue... 8th street were allowed... conditioned on their bearing the expense of putting in a sewer. Dr Yeager, C. A. Yeager and Calvin W. Price were appointed members of the Board of Health. All business houses, with the exception of Drugstores, were ordered to close their doors and transact no business on Sunday under penalty of fine or imprisonment. This order includes barber shops. The salary of Policeman John Waugh was raised to \$50 a month. A large number of accounts were audited and ordered paid. The monthly settlement with the sergeant showed a balance of \$1619.32 in the treasury. A good ordinance was enacted in regard to idlers, loiterers and lingers, who have been frightening and disturbing women on the streets. This offense is made a misdemeanor and is punishable by a heavy fine or imprisonment at the discretion of the Mayor. Some low lived degenerates has been annoying women by following and frightening them on the streets after dark periodically for a number of months, but he has ever escaped arrest.

Any Confederate Veteran who desires to attend the reunion can avail themselves of the hospitality of the City of Richmond and get a place in the ranks in the grand parade by sending his name and regiment to Col. Gatewood at Linwood or to this office. A special fare of \$3.25 for the round trip has been arranged. It would be appreciated if the adjutants of John Hoffman and John Burgess camps would send the proceedings of their meetings and the names of their representatives to this office for publication. For Sale, Restaurant or hotel building, on Main Street, best situation in town, - 5 rooms beside lobby, dining room, kitchen, store rooms bath room, etc. Apply at Times Office, Marlinton, W. Va.

There was the usual Sunday snow this week. Only three inches fell here, but the higher the elevation the deeper the snow. This has been the worst winter so far.

Anthony's Creek
Anthony's Creek is fast coming to the front as a lumber manufacturing territory. Years ago the white pine was cut and driven to Ronceverte, and the hemlock and hardwood left as being not worth cutting. Some years ago the St. Lawrence company built the Greenbrier & Iron Mountain railway up North Fork and have been gradualy building road ever since until they are but a mile or so from the divide between the North Fork and Douthard creek. On this creek they own a world of timber, and can easily build from there to Cochrans and other points of Knapps creek, where they still have large holdings of hardwood and hemlock. Snycock, where Meadow creek, North Fork and Anthony's creek join has sprung up a manufacturing center. Up each of these streams railroads have been built and are projected. The J. C. Moorehead company of Kittaning have been operating a big band mill here for two years and have about 5,000 acres yet to cut. The Dronoy Lumber company is building a large band mill here and already own nearly ten thousand acres, and control perhaps as much more when their railway is completed. On Meadow creek, they own another large boundary, which will probably be manufactured at this mill. At the mouth of the creek, at Anthony, the Henderson company have been cutting for a number of years. Beside this there are a large number of portable mills. Some cutting on their own lands, but more with contracts from the St. Lawrence Boom and Manufacturing Co. A few years ago this land was considered practically worthless, after the white pine had been taken away, but we are safe in saying that what remained will pay a larger profit than the magnificent pine which was marketed when the demand was less.

Dunmore
Kirk Hoover and Arch Galford left Tuesday for Jamestown, Va. Peter Shinnberry, of Cloverlick, died of measles Wednesday morning, aged about 23 years. We had a nice white Easter. The Easter supper at Greenbank was well represented Saturday night. There was a little combat at Greenbank Saturday night, also one at Bartow Sunday. Charles Lightner and Henry Wooddell contemplate building this summer. Mr Evick expects to move his harness shop on Main and R. R. St. The Mutual Telephone Co. had a large meeting at Greenbank Saturday. John Hevener, of Mt. Grove, is moving to Dunmore; Asa Corbin and O. B. Sharp are moving Stringtown. Mrs Rebecca Miller is on the sick list. David L. Sheets has commenced work on his big sawset. R. T. Noel has sold his farm near Dunmore and will migrate to Virginia. W. J. Pritchard has a car load of corn at Stillington and cannot cross the river till it falls. Auctioneer Swecker made a very successful sale of Isaac Sharp's property on the 9th. He will sell a car load of milk cows at Marlinton on Wednesday the 17th. Jacob Hughes and his family moved to Greenbrier county last week. Clayton Bell and Mrs. Alice Kelly were united in the bonds of holy wedlock on the 8th inst. near Glade Hill. Miss Alice Mays closed her school at H. N. Moore's and returned to her home in Virginia. Charles McLaughlin has returned from school at Parkersburg. C. D. Carpenter and Jesse Hughes sold out their lumber job in Greenbrier county. Beside the old grant male shoe premises us by Grant Cochran, he brought us a very fine wood hatchet or celt. It is of a very bad flinty slate, highly polished, and has a good cutting edge.

The show came Tuesday, but owing to the bad weather and more there was no performance. In spite of the snow and cold there was a fair crowd in town. Burn, to Mr and Mrs Harry Robb, April 8, a son.
